

# MINNESOTA IT RISK MANAGEMENT FORUM

## Purpose

The objective of the Minnesota Information and Technology Risk Management Forum is to provide a professional medium for the exchange of experiences and information sharing related to IT Risk Management. The forum is intended to enable interactive dialog between peers to build candid, productive, and trusted relationships.

The forum will focus on interaction through facilitated discussions or case study presentations. Members share knowledge and strategies relevant to IT Risk Management programs through topics offered by members with experience and interest in specific areas such as: Vendor/Supplier Management, Governance Risk and Compliance, Risk Management Tools and Trends, etc.

## Membership

Members represent a wide spectrum of local businesses, educational institutions, and government agencies. Membership is open to people who influence or make decisions in the areas of IT risk management.

Qualified participants include corporate, business, government and academic senior professionals and **non-sales** related personnel from the Vendor/Supplier communities.

## Sponsor

URL: [Twin Cities Privacy Network](#)

Contact e-mail: [gia@minnesotaprivacy.com](mailto:gia@minnesotaprivacy.com)

## Communications and Meetings

The sponsor will maintain a list for communication with members and interested parties. The group will meet at least once quarterly with rotational hosting by member companies. Ground rules will be provided and managed by the hosting company and the presenter.

Presentations will be submitted to [gia@minnesotaprivacy.com](mailto:gia@minnesotaprivacy.com)
